

FOR IMMEDIATE RELEASE

Knoah Solutions Successfully Audited For Payment Card Industry Data Security Standard (PCI-DSS) Certificate

LAS VEGAS, NV - May 12, 2011 – On April 21, Knoah Solutions successfully completed a compliance audit by third-party auditing company, TÜV Rheinland Group, and was given an Attestation of Compliance for PCI-DSS certification.

The PCI-DSS certification process is an industry standard to benchmark and assess the security mechanisms of systems that store, process and/or transmits payment cardholder data.

“With this certification in place, Knoah customers can feel confident that their data is being protected against potential financial loss and remediation costs that can arise from security breaches, as well as minimizing the risk around identity theft and credit card fraud,” said Knoah Solutions CEO, Sri Myneni, “The trust of clients and the security of their data has always been Knoah’s priority and this certification attests to Knoah’s continued pledge of keeping customer data safe and secure.”
